## Quick Setup 2.4GHz Wireless (Default)

### 1.) Connect Via 2.4Ghz

Wireless 2.4GHz mode

**Please Note:** When the scanner is within range of USB 2.4Ghz receiver, the devices will automatically attempt to connect to each other until a connection is established.

### 2.) Perform a Test Scan

To test that your scanner is connected, open Notepad or a Text Editor application on your connected computer, focus the cursor, and scan the Test Barcode.

Connect the included USB 2.4GHz Wireless Dongle to a free USB-A port on your computer. The dongle is a USB Class Compliant device and does not require a driver to operate in HID mode.

Plug & Play USB 2.4GHz Wireless Dongle (included)

Test Barcode

You will see "Connection Successful" text populate in your text editor upon scanning the above test barcode, confirming your device is connected.

## Quick Setup Bluetooth HID

### 1.) Enter Pairing Mode

Bluetooth Mode

Scan this barcode to activate Bluetooth mode and to put the scanner into "Pairing mode", ready to pair to your mobile device.

### 2.) Enable Bluetooth on your mobile device

Go to your phone's homescreen and find "Settings", then "Bluetooth" and turn Bluetooth on. Your device will search for available devices within range.

After approx 20 seconds, Saveo Scan will appear as an external keyboard with a unique identifier serial number (PKT2-XXXXXXX).

Select the scanner from "Available Devices" and wait for pairing process to complete.

Once "Connected" is displayed, your device is paired to the scanner. Your scanner is now ready to use.

**Please Note:** Devices only need to be paired once. When they are within Bluetooth range they will automatically attempt to connect to each other. If you wish to connect to another device it is recommended you first unpair this device.

## Charging your device

### 1.) Connect the USB Type-C Cable (included)

Simply connect the USB Type-C cable to the port on the bottom of the scanner and connect the USB Type-A end to a USB Type-A port (Minimum output Rating: 900mA+).

## Data Transmission Modes
